

Parent/Gradian:

With the end of the school year quickly upon us, we know that you are making plans for your child's summer vacations and activities. The Harrisburg School District utilizes Imagine Learning in the classroom to support student learning around the subjects of Reading and Vocabulary.

The district participates in a state grant that allows us to provide Imagine Learning to students within the district. This has been a program we have traditionally done during the school day. However, we are excited to announce that your child will be able to continue to use this powerful tool throughout the summer

With Imagine Language & Literacy, every child receives explicit, targeted instruction within an individualized learning path that continually adjusts to their needs. Thousands of engaging activities teach critical language and literacy concepts such as reading and listening comprehension, basic vocabulary, academic language, grammar, phonological awareness, phonics, and fluency. Kids love the program because it's fun and challenging.

The recommended amount of time is no more than 20 minutes a day 3-4 times a week. We hope your child continues using Imagine Learning over the summer to support reading and vocabulary skills over the summer!

Have a Great Summer!
